

SARMA BUFFER STOP INDEX 3rd Edition

The first edition was published in mid 1982 and was compiled by Vic Kollosche. This edition includes all of that publication and all other articles etc that were published in "The Buffer Stop" up to and including the August 1997 issue, and also up to October 2000.

Bill Lewis
October 2000

It is a safe bet that the plan, the idea, the material needed and the way to tackle that modelling project exists some where in our magazine, if only you knew where to look.

To assist you with this task, I have compiled a list of various articles which may contain some useful information.

Vic Kollosche
May 1982
